

Description

Sonoff Smart plug S55

Sonoff Smart plug S55 is a handy Waterproof Smart Socket that can connect to your home Wi-Fi network and allows you to manage and program devices with your phone or voice via Google Assistant. Customize schedules for devices to switch on/off automatically according to your needs wherever you are. It's heavy-duty IP55 weather resistant material ensures it is rugged and safe when you use it outside. Perfect for various occasions like garden, patio, open-air restaurant and more.

****The S55 is IP55-rated when closed. Please be aware that if there is a plug in the device, the S55 will not achieve a 100% seal, and its IP55 rating may be compromised****

IP55 = Limited protection from dust and low-pressure water jets from any direction
