

Description

Sonoff Smart Security Camera (With Cloud Storage option).

The wireless Sonoff Smart Security Camera offers outstanding Full HD 1080P resolution with crystal-clear images as well as 360° wide monitoring angles which ensures every corner is visible. It also features IR night vision, motion detection and instant motion alert as well as two-way audio. In other words, you know what's going on in your home anywhere, anytime.

Additionally instantly check your home when connecting to the Sonoff door/window sensor or motion sensor through push notifications sent by the sensors.

The camera supports memory card storage so that you can easily store your more precious memories. *This function requires an NVR device.

Wi-Fi and Ethernet network connection are available.

Security Camera Features

- Patrolling Without Blind Spot- Complete 340° coverage ensures each corner is visible.
- Two-Way Audio- View and communicate with your family anytime, anywhere.
