

Sonoff M5 3C

The Sonoff M5 3C smart light switch has a mechanical button and smart wi-fi switch that is available in 1/2/3 channel, supporting local on and off, App and voice control. Through the eWeLink APP, you can manage devices at any time.

Want to quickly find the switch button by the LED indicator? Or prefer to sleep well without the disturbance of lights? The LED indicator on the button can be adjusted to various brightness to meet your need.

M5 supports voice control by working with Google Home, Alexa, Alice and Siri shortcut. When you are busy, you can turn on the light with your voice.

It has the same color as NSPanel which provides a consistent decoration to match your home style.

*Please note that light switches do not have built-in dimming or RF functionality *

*Works with R5 Remote

*Requires a qualified electrician to install.

Switches Require a Neutral Wire and 2.4Ghz Wi-Fi and Internet

Certifications are currently in application status should you require a COC for your building's before local approval has been granted by the NRCS we recommend installing the Sonoff Touch smart switches.

Sonoff M5 3C Features

- Physical buttons – High-precision physical button to operate. Anyone can easily use it.
- Safe Disassembly – Separate the high and low voltage and disassemble the switch safely.
- APP control – Manage devices at any time, don't worry about forgetting to turn off the electrical appliances.
- Voice control – Supports voice control by working with Alexa, Google Home, Alice and Siri shortcut.
- Safety Certification – CE and UKCA certified. Safe performance is guaranteed.
- "eWeLink-Remote" Control – M5 is a smart switch with the gateway function of "eWeLink-Remote". If you want to use the "eWeLink-Remote" control function, you need to use it with the [S-MATE](#) or scene remote controller R5.
