

Description

Sonoff Smart Curtain Motor Zigbee

Sonoff designed the high-quality Zigbee Curtain Motor to easily automate your home’s curtains. This device utilizes the Zigbee protocol, which allows for seamless integration with other Zigbee-enabled devices, thus making it an excellent addition to your smart home ecosystem.

This motor is equipped with a powerful 25W motor, providing smooth and quiet operation for your curtains. It also features an adjustable speed control, enabling you to customize the opening and closing speed of your curtains to your liking.

Installing the Sonoff Zigbee Curtain Motor is easy, and it accommodates both single and double curtain tracks. Its compact size allows you to easily conceal it behind your curtains, preserving the aesthetic of your room.

Furthermore, the motor has compatibility with various voice assistants such as Amazon Alexa and Google Assistant. You can utilize your voice to open and close your curtains or establish schedules to automate your curtains according to your daily routine.

Overall, the Sonoff Zigbee Curtain Motor is an excellent choice for anyone looking to automate their curtains with a reliable and efficient device that seamlessly integrates into their smart home system.

*Maximum curtain length of 3.4 Metres

**Requires a Zigbee Hub or NSPanel Pro with the internet.

***Please not that when using plastic clip-in rails (see below), an external bracket will be required (not supplied).
