

# Description

## Sonoff ifan04

Sonoff iFan04, the new version of iFan03,more stable in performance, is a Wi-Fi ceiling fan and light controller which supports controlling the ceiling fan with light using your phone wherever you are.

iFan04 comes with a 433Mhz remote control

### Features

- Direct Replacement- Simply replace your existing ordinary ceiling fan with a light controller with iFan04, you will immediately get a smart ceiling fan with lights.
- APP&433MHz RF Remote Control- Through eWeLink App, you can remotely control the ceiling fan with lights with ease on iOS & Android smartphone anywhere and anytime. The device can be also controlled via the RM433 remote controller (included in the package). The small 433MHz remote controller design allows you to hang it on the wall as a wireless wall switch or remove it as a remote control as required.
- 3 Fan Speeds- The APP enables you to choose low, medium, and high fan speed to keep your room comfortable. Besides, RM433 remote controller can be also used to adjust coolness level as you desire.
- Timer & Schedule- By pre-setting single, repeating, and countdown timers, the iFan04 WiFi Ceiling Fan & Light Controller can be automatically turned on/off at a specific time.
- Hands-free Voice Control- Sonoff iFan04 is compatible with Amazon Alexa ( Amazon Echo/Echo Dot/Amazon Tap) and Google Home Assistant. It allows you to use your voice to control your ceiling fan with lights and enjoy a hands-free experience.

### Specifications

- Input: AC100-240V 50/60Hz 5A
- Light Output: AC100-240v 50/60Hz 3A
- Tungsten lamp Output(iFan03): Max. 660W/220V
- Tungsten lamp Output(iFan04-L): Max. 360W/120V
- LED Output(iFan03): Max. 300W/220V
- LED Output(iFan04-L): Max. 150W/120V
- Fan Output: Max. AC100-240V 50/60Hz 2A
- Wi-Fi: IEEE 802.11 b/g/n 2.4GHZ
- RF Remote Control: 433.92MHZ
- Materials: PC V0
- Dimension: 116X55X26mm
- Certified Compliance: CE, FCC, ROHS
- Works With: Amazon Alexa, Google Assistant
