Description

The MK2 Pop Up Power Dock is a superb addition to both home and office environments, available in three variants to suit your requirements:

MK2 Standard: Fitted with two standard SA 3-pin and 1 Round 2-pin power sockets for reliable everyday use.

MK2 CC: Fitted with one standard SA 3 pin power socket, one Round 2-pin, one New ZA 3-pin and two Type-C charging ports for fast and efficient charging of mobile devices.

MK2 CC Wireless: Fitted with one standard SA 3-pin power socket, one Round 2-pin, one New ZA 3-pin and two Type-C charging ports for fast and efficient charging of mobile devices and a 15W Wireless charger for cable-free charging of compatible devices.

All variants are equipped with a smooth gas strut mechanism, allowing the Power Dock to rise effortlessly from a flush-mounted position when needed. When not in use, it retracts, blending seamlessly with your desk or work surface to maintain a clean and organized space.

With over 40 years of experience, PowerLogic is dedicated to quality, safety, and convenience. The PDO MK2 reflects this commitment, ensuring a blend of elegance and functionality for any workspace.
