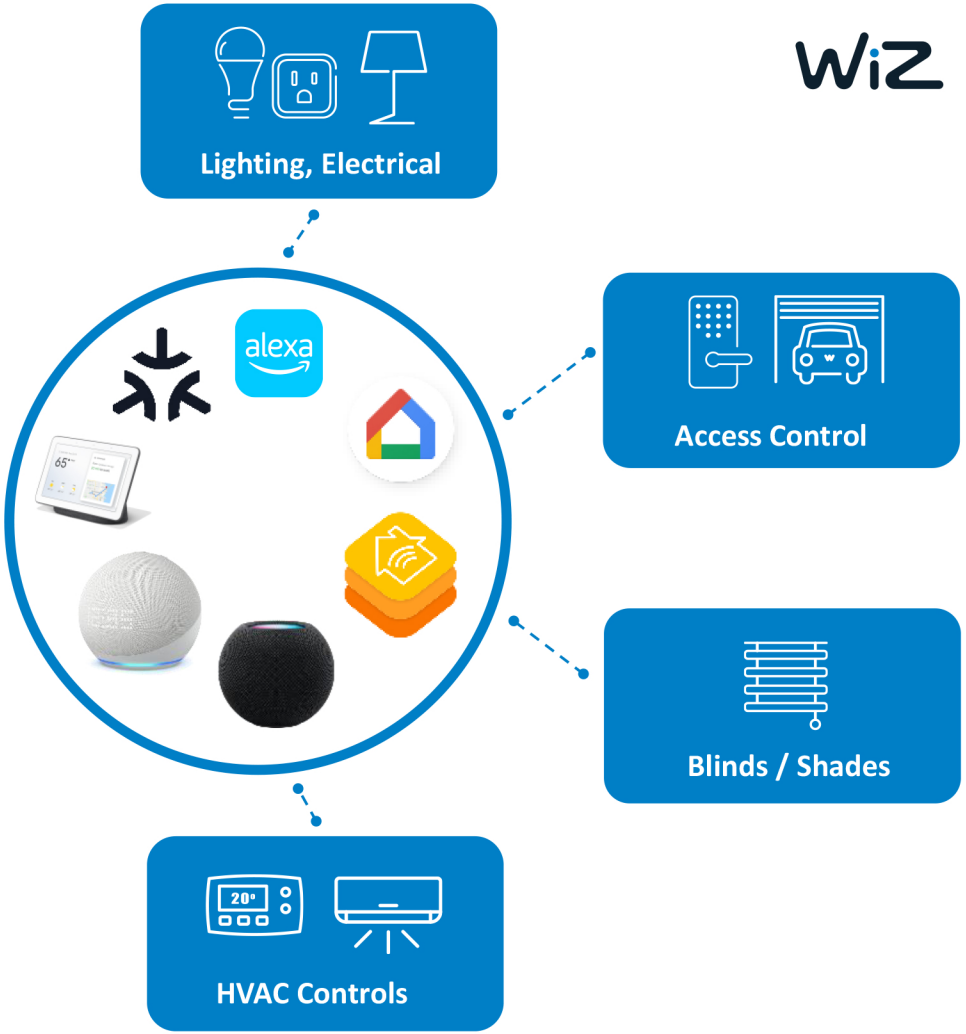
WHAT IS MATTER?

- Matter is a universal open standard, enabling compatible devices and systems to securely connect and interact with each other.
- Matter is a local communication protocol – it doesn't specify any of the communication with Cloud servers, it's secure.
- Matter supports Wi-Fi, Thread, and Bluetooth*.
- Matter is supported by all the major smart home platforms: Apple, Amazon, Google and Samsung.
- You may watch this video on YouTube to learn more about Matter (CSA, Connectivity Standards Alliance).

WiZ + Matter

- WiZ is making its entire portfolio Matter capable by H1 2023.**
- With support for Matter, WiZ products will work with any Matter-capable device and system, including Apple Homekit.
- Matter only supports basic lighting control, such as on/off, dimming and color changing. WiZ users will continue to enjoy the WiZ-unique features such as dynamic light modes and SpaceSense using the WiZ app.

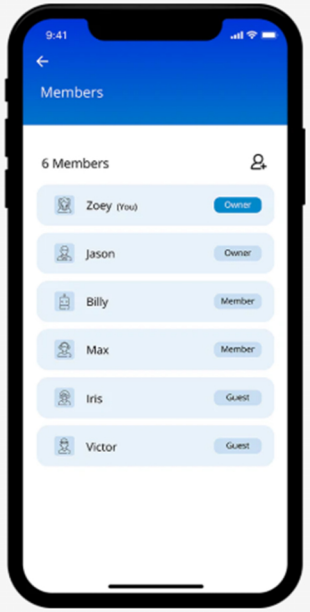


*Bluetooth is for commissioning only

**We are completing Matter certification for all WiZ and Philips Smart LED products (excluding control accessories: WiZmote, Motion Sensor and Smart Button) by H1 2023.

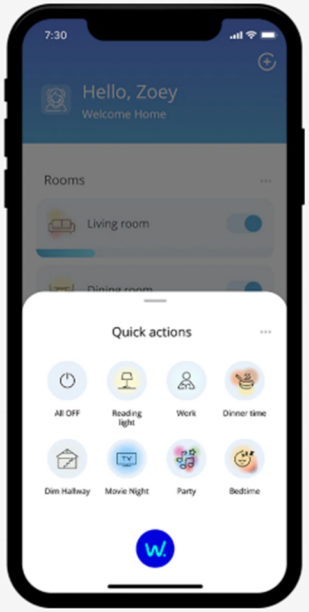
FIND THE RIGHT LIGHT

We've created beautiful preset light modes for everyday situations. Or choose from over 16 million colors. With WiZ, finding the one right light is always effortless.



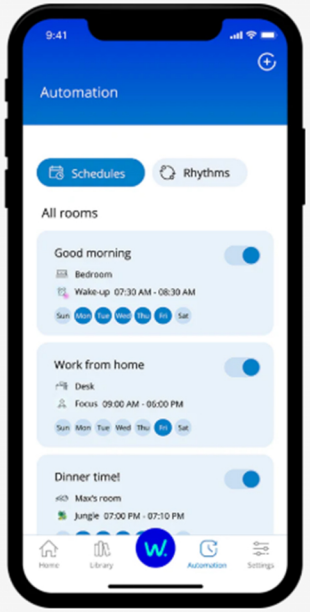
LET EVERYONE IN ON THE ACTION

With WiZ, anyone at home can control the lights. Just have each member of your household download the app, and you can give new users access without disturbing any of your presets.



CHANGE THE MOOD WITH YOUR FINGERTIP

Have you found the perfect light setting to create that special mood? Save it as a shortcut and turn your vibe on instantly. Save a second shortcut to instantly switch back.



GUIDED BY THE LIGHT

Want to wake up at 7 am, stop working at 6 pm, and have dinner at 8 pm? Use the app to set a schedule and let WiZ automatically brighten, dim, or change colors to suit whatever you need to do.
