

BNETA IoT Smart Constellation Connect Light ST64

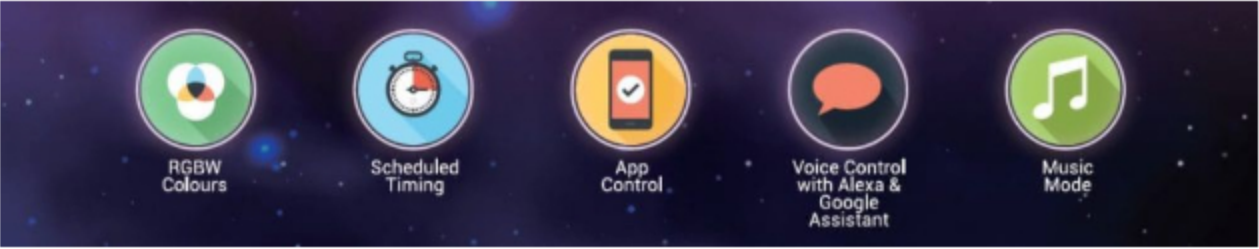

The Smart Constellation Connect Light ST64 is a cutting-edge lighting solution designed to enhance your living space with its scientific design and innovative features.

Illuminate Your Home with Smart Constellation Connect Light

In today's fast-paced world, creating a comfortable and efficient living space is more important than ever. The Smart Constellation Connect Light is not just a lighting solution; it's a lifestyle upgrade that brings numerous benefits to every home.

Here's what makes it stand out:

Future-Proof Your Home

As technology continues to evolve, having a smart lighting system like the Smart Constellation Connect Light ensures that your home is ready for the future. It's a smart investment that adds value to your property and keeps you ahead of the curve in home automation.

Scientific Design, Shape Your Light: The ST64 boasts a sleek and modern design that not only illuminates your space but also adds a touch of elegance to any room.

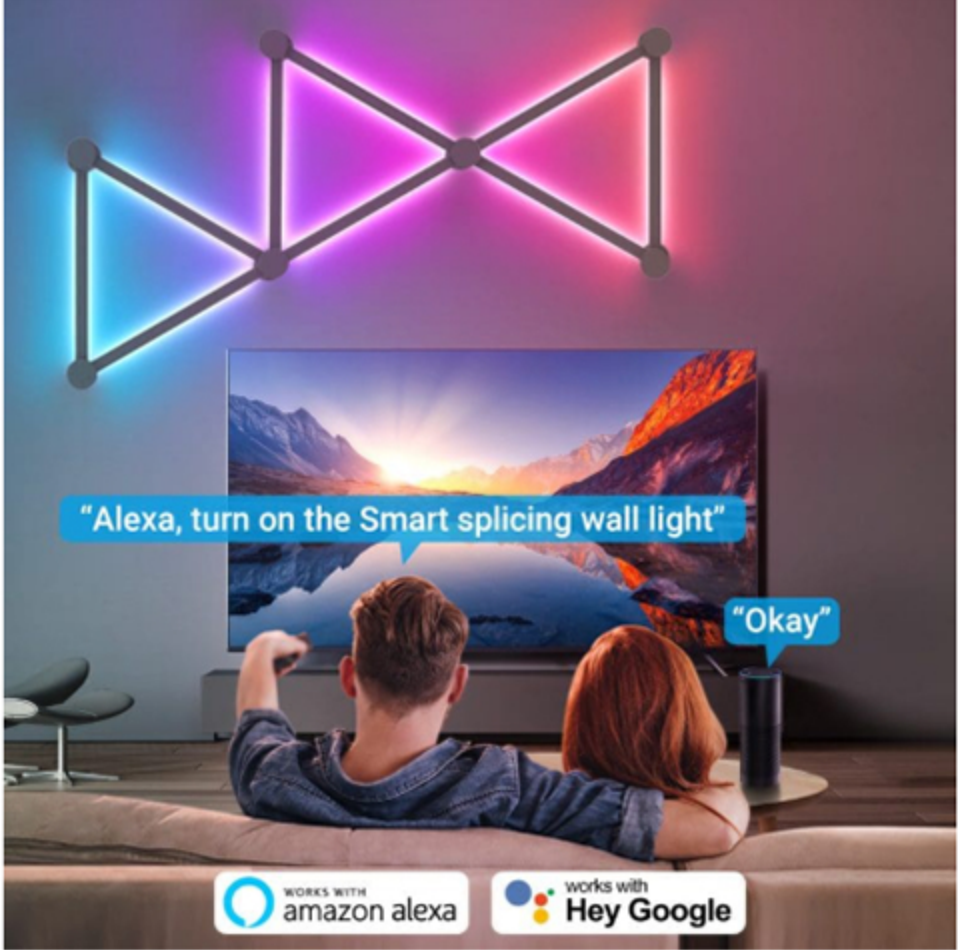

RGB Full Color, 16 Million Color Effects: With an extensive palette of 16 million colors, you can customize your lighting to match any mood or occasion. Whether you want a calming blue for relaxation or a vibrant red for a party, the choice is yours.

Convenience and Control

Imagine controlling your home lighting with just a tap on your smartphone or a voice command. The Smart Constellation Connect Light integrates seamlessly with smart home systems like Alexa and Google Home, giving you unparalleled control and convenience. Whether you're at home or away, you can adjust your lighting to suit your needs.

Voice Control: Seamlessly integrate the ST64 with your smart home ecosystem. It's compatible with Alexa and Google Assistant, allowing you to control your lights with simple voice commands.

Customizable Ambiance

Create the perfect ambiance for any occasion with customizable lighting options. Whether you're hosting a dinner party, enjoying a quiet evening, or working from home, the Smart Constellation Connect Light allows you to adjust the brightness and color temperature to match your mood and activities.

Music Mode: Elevate your entertainment experience with the music mode. The light syncs with your favorite tunes, creating a dynamic and immersive atmosphere.

Health and Well-being

Proper lighting can have a significant impact on your health and well-being. The Smart Constellation Connect Light offers settings that mimic natural daylight, helping to regulate your circadian rhythm and improve sleep quality. Additionally, it can reduce eye strain by providing optimal lighting for reading and other tasks.

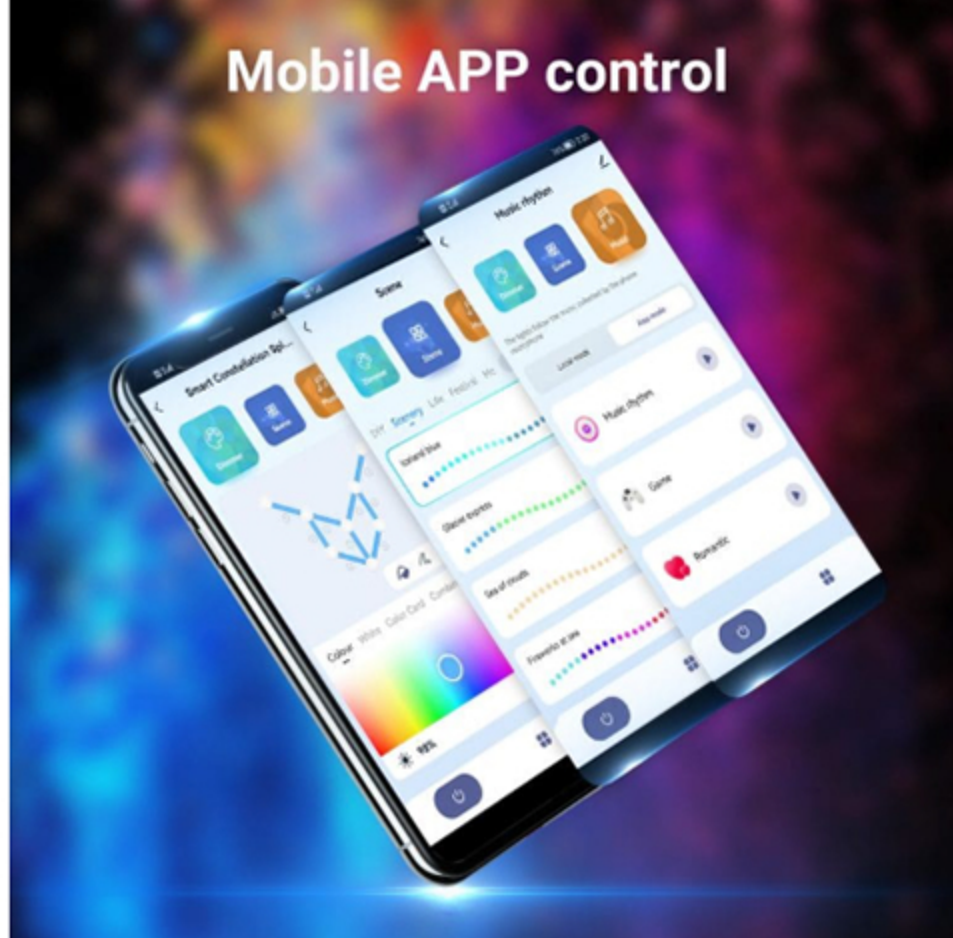

Set Schedules / Timers: Never worry about forgetting to turn off the lights. You can set schedules and timers to automate your lighting, ensuring your home is always lit just the way you like it.

Countdown: The countdown feature lets you set a timer for the lights to turn off, perfect for bedtime or when you need a gentle reminder.

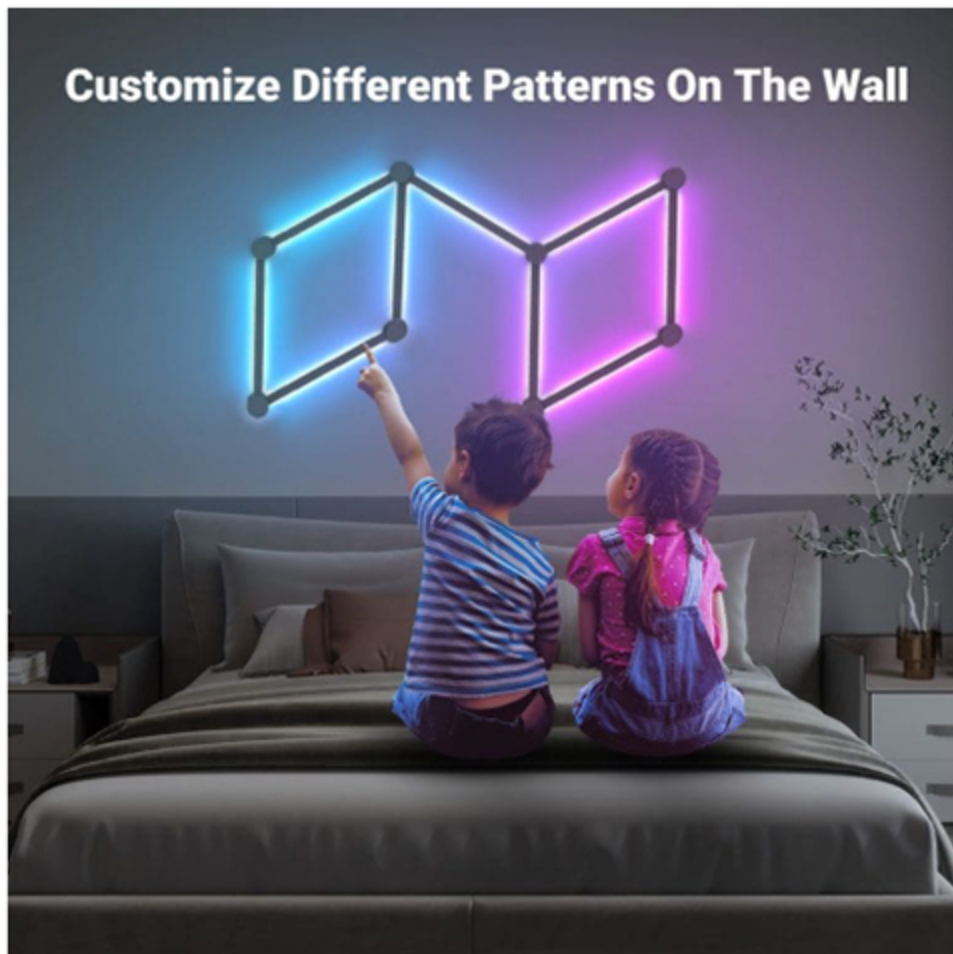

Group Control: Manage multiple lights simultaneously with the group control feature. Adjust the settings for all your lights at once, making it convenient and efficient.

Mobile APP control

Multi-Scenario Application: Whether it's for a cozy night in, a lively gathering, or a focused work session, the ST64 adapts to various scenarios, providing the perfect lighting for every moment.

Customize Different Patterns On The Wall

Here's why you should consider making it a part of your household:

1. Energy Efficiency

The Smart Constellation Connect Light is designed with energy-saving technology that reduces electricity consumption. By using LED bulbs and smart sensors, it ensures that lights are only on when needed, significantly cutting down on your energy bills.

3. Enhanced Security

Smart lighting can be a crucial part of your home security system. With features like motion detection and remote control, you can deter potential intruders by making it appear as though someone is always home. The Smart Constellation Connect Light can also be programmed to turn on and off at specific times, adding an extra layer of security.

7. Eco-Friendly Choice

By choosing the Smart Constellation Connect Light, you're making an eco-friendly choice. Its energy-efficient design and long-lasting LED bulbs reduce waste and lower your carbon footprint, contributing to a more sustainable planet.

Incorporating the Smart Constellation Connect Light into your home is more than just a lighting upgrade; it's a step towards a smarter, safer, and more sustainable lifestyle. Illuminate your home with intelligence and style, and experience the myriad benefits that come with smart lighting technology.

Soft And Not Dazzling Light

Technical Specifications

- Voltage : DC 12V
- Max Current : 2A
- Wireless Type : WiFi 2.4GHz
- Radio Technology : IEEE 802.11B/G/N
- Shell Material : PC
- Timing : Flexible Timing
- Round Connector Size(mm) : Ø40* H33
- Single Size(mm) : L280* W20* H10
- Lighting Color: RGBW

BNETA IoT

Smart Constellation Connect Light

The Smart Constellation Connect Light is the ultimate in geometric wall lighting that lets you create a multitude of constellations. Boost your mood with its music mode and control the scene mood by voice control using Alexa or Google Assistant. Mounts easily onto smooth surfaces with double-sided foam.
