

Description

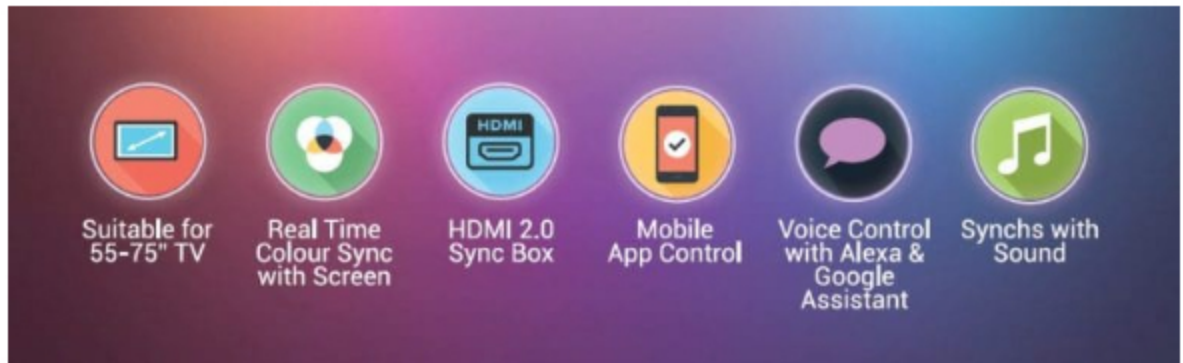

BNETA IoT Immersion TV Backlight with HDMI Sync Box

The Immersion TV Backlight with HDMI Sync Box is a cutting-edge accessory designed to enhance your home entertainment experience. This device combines LED backlighting with HDMI synchronization to create an immersive viewing environment.

Comfortably supports TV or Monitor size up to 65 inch

Key Features:

Accurate Color Syncing:

- The HDMI 2.0 sync box and control box allow connections with any HDMI source, ensuring accurate color representation with zero delay.
- This feature ensures that the backlight colors match the on-screen content seamlessly, enhancing the overall viewing experience.

Immersive Gaming and Viewing Experience:

- Compatible with all mainstream game consoles and set-top boxes, the backlight syncs with the game screen quickly and accurately.
- It supports various video sources, including Netflix, YouTube, and Hulu, making it ideal for home cinema use.

Smart APP Control

Smart Voice Control:

- The device is compatible with Alexa and Google Assistant, allowing for easy voice control.

Music Synchronization:

- Equipped with a built-in microphone, the control box can synchronize the lights with music, offering six individualized music modes.
- This feature is perfect for creating a dynamic and colorful atmosphere during parties or gaming sessions.

Musical Rhythm

High-Resolution Support:

- The HDMI 2.0 sync box supports HDCP 2.2 video resolution, up to 4K/60Hz HDR 10+, ensuring high-quality video output.
- This ensures that the backlight can keep up with the latest high-definition content without any lag.

Multiple Modes and Customization:

- The RGB technology allows for customization of each light segment, displaying a variety of colors simultaneously.
- Users can choose from 44 scene preset modes or adjust the brightness, speed, and color to their preference.

Installation Tips:

1. Preparation:

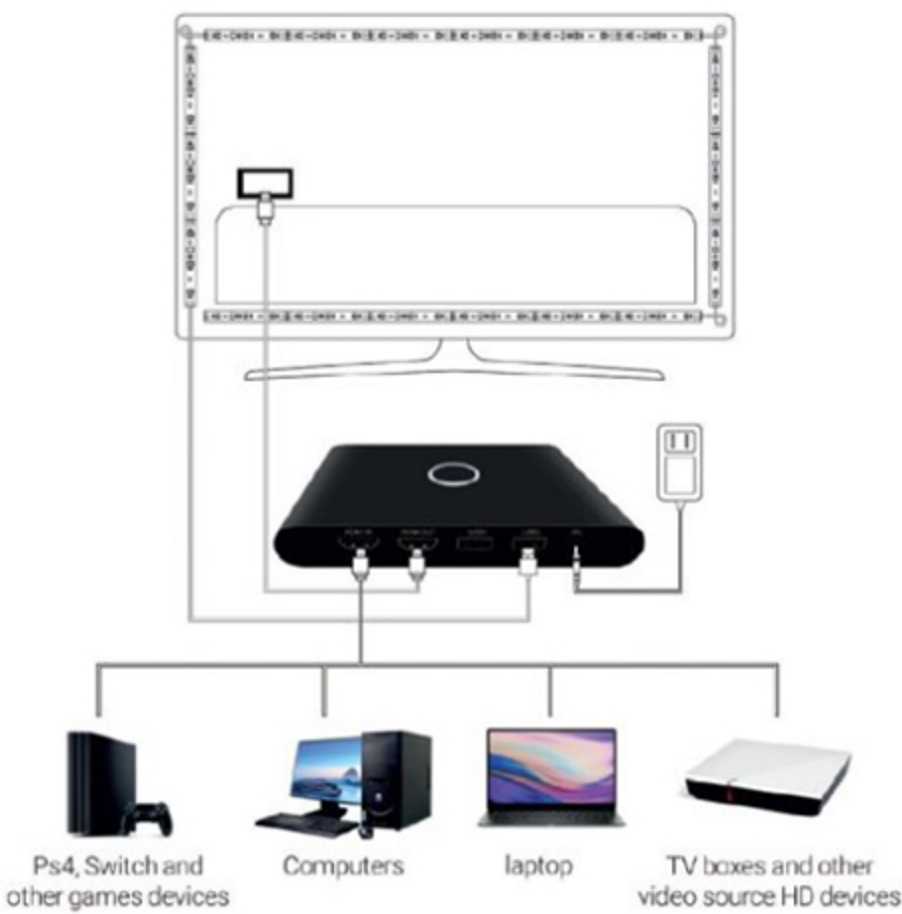

- Clean the back of your TV to remove any dust or dirt, as this can affect the adhesive tape's effectiveness.

2. Placement:

- Start attaching the LED strips from the bottom left corner of the TV.

3. Connection:

- Connect the HDMI sync box to your TV and other HDMI sources, such as a gaming console or streaming device.
