BNETA IoT Smart Triangle Light ST68
Illuminate Your World with Innovation

Scientific Design, Shape Your Light

The Smart Triangle Light boasts a cutting-edge scientific design that not only enhances your space aesthetically but also optimizes light distribution. Its unique triangular shape allows for creative configurations, making it a perfect fit for any modern home or office.

RGB Full Color, 16 Million Color Effects

With RGB full color capabilities, the Smart Triangle Light offers an astounding 16 million color effects. Whether you're looking to create a calming ambiance or a vibrant party atmosphere, this light has you covered. The possibilities are endless, allowing you to customize your lighting to match any mood or occasion.

Voice Control

Take convenience to the next level with voice control. Compatible with Alexa and Google Assistant, you can effortlessly adjust your lighting with simple voice commands. Say goodbye to fumbling for switches and hello to hands-free control.

Music Mode

Transform your space into a dynamic light show with Music Mode. The Smart Triangle Light syncs with your favorite tunes, pulsing and changing colours in rhythm with the beat. It's perfect for parties, workouts, or just adding a bit of fun to your daily routine.

Set Schedules / Timers

Never worry about forgetting to turn off the lights again. With the ability to set schedules and timers, you can automate your lighting to fit your lifestyle. Wake up to a gentle sunrise simulation or ensure your home is well-lit when you arrive after dark.

Countdown

The countdown feature is perfect for those moments when you need a reminder. Whether it's timing your cooking or setting a limit for screen time, the Smart Triangle Light has you covered.

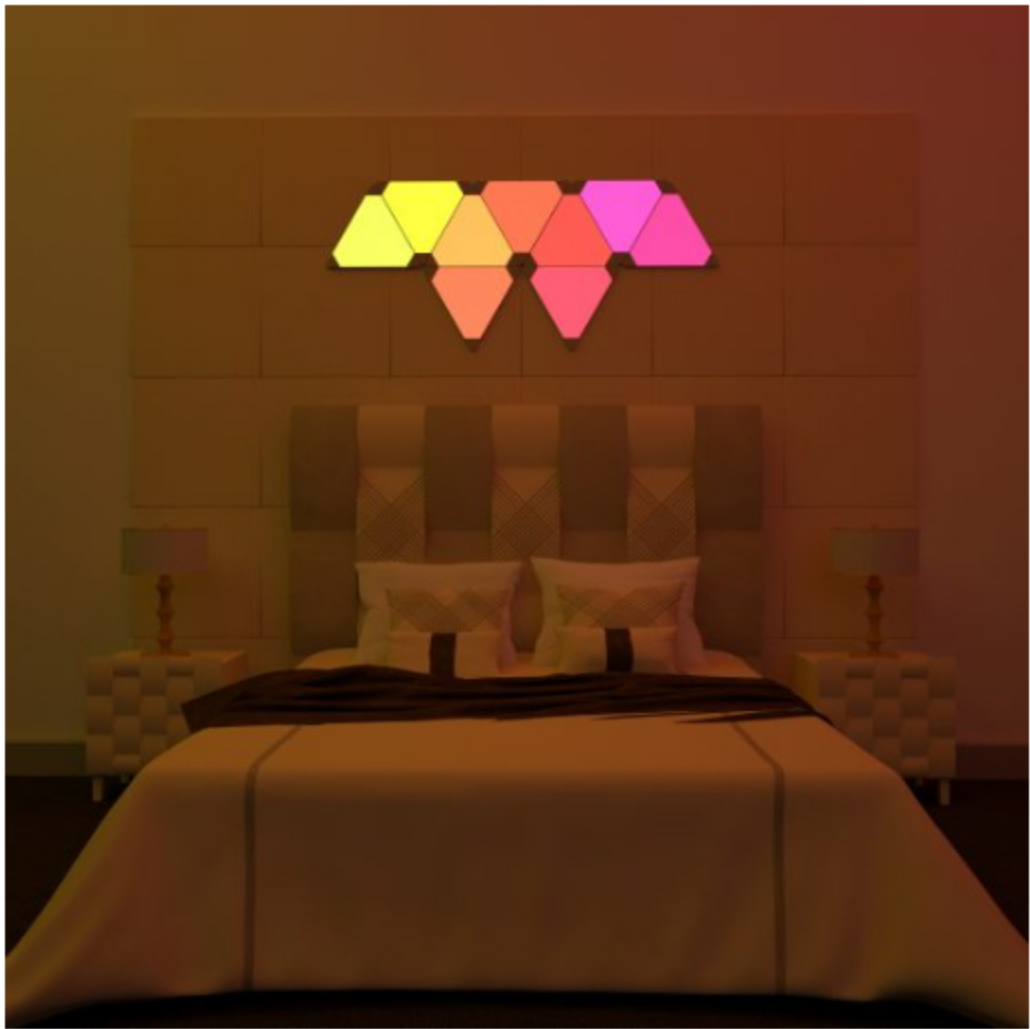

Group Control

Manage multiple lights effortlessly with group control. Sync several Smart Triangle Lights together and control them as a single unit. This feature is ideal for creating cohesive lighting schemes throughout larger spaces.
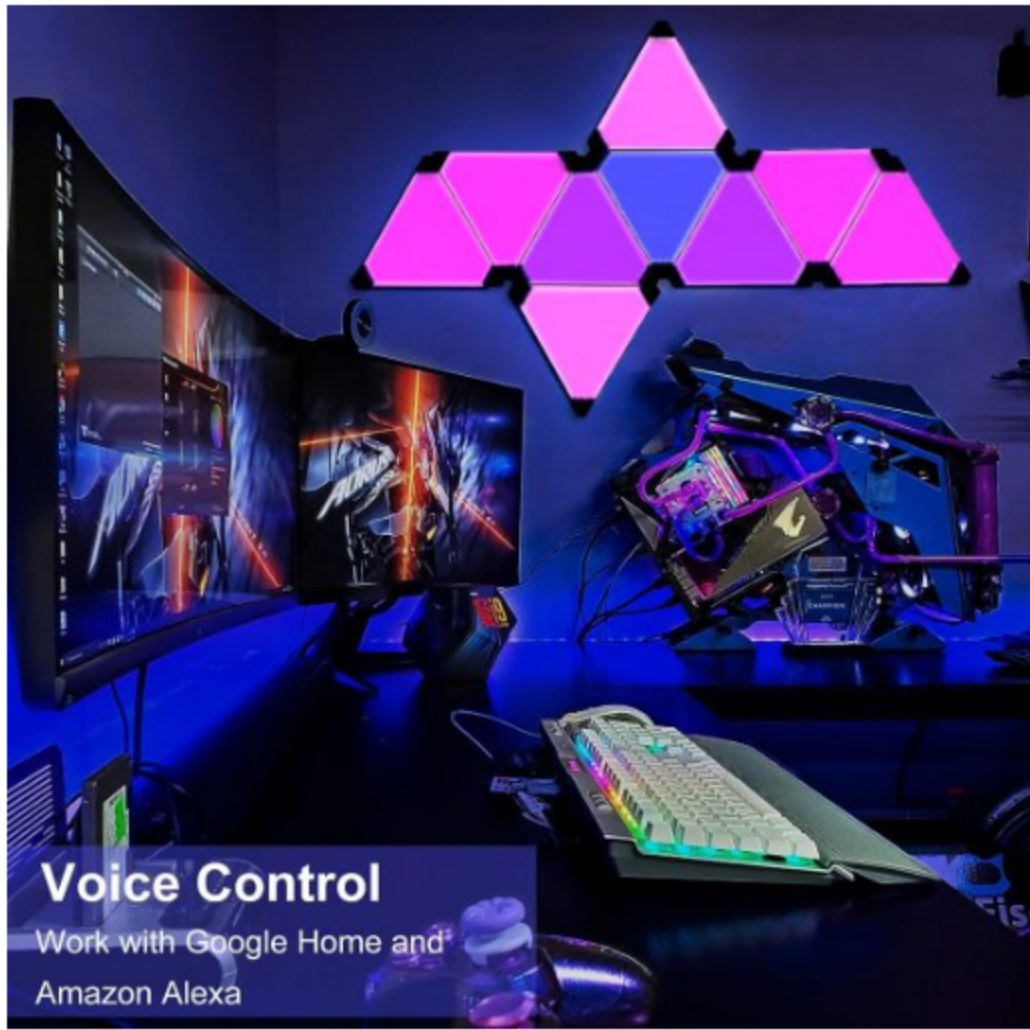

Multi-Scenario Application

From cozy living rooms to bustling offices, the Smart Triangle Light is versatile enough to suit any environment. Its multi-scenario application ensures that you have the perfect lighting for every situation.

Compatible with Alexa, Google Assistant

Seamlessly integrate the Smart Triangle Light into your smart home ecosystem. Its compatibility with Alexa and Google Assistant means you can control your lighting alongside other smart devices, creating a truly connected home.
