

Description

The Sonoff Smart Light Switch T6 1ch

Experience the new generation of smart lighting control with the Sonoff Smart Light Switch T6 1ch. This switch offers universal connectivity via Matter, allowing effortless integration with all major smart home platforms, while providing seamless compatibility with the Apple ecosystem (Siri, HomeKit). The Sonoff Smart Light Switch T6 1ch features a premium glass touch panel and innovative features like the Detach Relay Mode to ensure uninterrupted control of your smart lights.

- Matter Compatibility: Effortlessly integrate with all major smart home platforms for unified control.
- Apple Ecosystem Support: Works seamlessly with Siri, iPhone, iPad, and Apple Watch for easy control.
- Smart Scene Creation: Create personalized automation scenarios across both Sonoff and Matter ecosystems.
- Night Switch Locator: Features an adjustable LED indicator to easily find the switch in the dark.
- Sleek Design: Durable PC and Glass casing.

****Detach Relay Mode disables the switch's physical button (Used For App control and scene control only)****
